Research Administration Updates

NSF Updates

- Revised [Biographical Sketch](#) and [Current and Pending \(Other\) Support](#) formats for consistency with the (PAPPG) ([NSF 23-1](#)). The requirement to use the revised formats is effective for proposals submitted or due on or after January 30, 2023 (this includes the certification/signature requirement).
- These revised formats are now available in [SciENCv](#) and on the [NSF Policy Office website](#). As a reminder, the mandate to use SciENCv only for preparation of these senior personnel documents will go into effect for new proposals submitted or due on or after October 23, 2023.

****Utilizing SciENCv for biosketches and current and pending is strongly encouraged prior to the October 2023 mandate.*

Example of Certification on Current and Pending

Certification:

When the individual signs the certification on behalf of themselves, they are certifying that the information is current, accurate, and complete. This includes, but is not limited to, information related to current, pending, and other support (both foreign and domestic) as defined in 42 U.S.C. §§6605. Misrepresentations and/or omissions may be subject to prosecution and liability pursuant to, but not limited to, 18 U.S.C. §§ 287, 1001, 1031 and 31 U.S.C. §§3729-3733 and 3802.

CERES Implementation Updates

KEY PROPOSAL SUBMISSION DATES

- **April 13** (4/13, 5pm is the last day to submit a proposal using InfoEd for review)

This means--> Proposals due after 4/13 but before the CERES go live date of 4/24, must be submitted by 5pm on 4/13 to be reviewed and submitted through InfoEd

- **April 14-23** (starting 4/14 will somewhat of a “blackout period” for InfoEd)

This means--> Only emergency submission requests will be granted by SRO during this time period on a case-by-case basis.

- **April 24-25 (CERES goes live 4/24!)**

This means--> CERES is live, and we officially will be utilizing this exciting new system for proposal submissions, agreement tracking and more! Proposals due on 4/24 or 4/25 will hopefully have been submitted prior. However, for proposals due on these dates that did not get entered in InfoEd by 4/13, please understand that these first two days will be a busy and critical time for SRO, research administrators and faculty across the university as everyone adjusts to our new system.

CERES 101 is a Computer-Based Learning (CBL) course that covers CERES basic terminology and navigation. In this course, learners will become familiar with the CERES system, starting with an overview of what the system is, how it is used, and how CERES benefits all users. Next, learners will tour the system, becoming familiar with key areas of the system, including where to find an item, its status in the workflow, and all information related to that item.

CERES 101 is a prerequisite for instructor-led training sessions. Take the CERES Readiness Test at the end of this course to assess your readiness for the instructor-led training sessions.

The objectives for this course are:

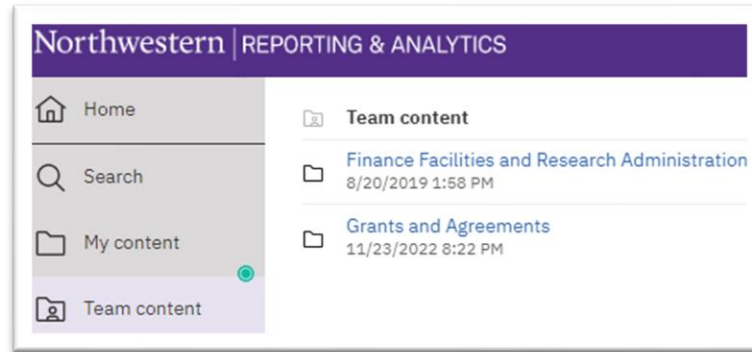

1. Define key CERES terminology.
2. Explain at a high level the CERES workflow.
3. Find and interpret information about funding proposals, awards, and agreements.
